**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Valley temperatures at dawn around plus 1 or 2 Celsius, then a chance of 18C in valleys this afternoon.

Forecast for Sunday 08 Nov 2020

Weather: Cloudy overnight with outbreaks of rain quickly spreading northeast, locally heavy. Dry but largely cloudy conditions follow through by late morning, then through the afternoon some bright or sunny spells develop. Late evening a few light showers may arrive, but the evening will be mostly dry with some clear spells, these mainly across the north.

Maximum wind: Southeasterly 15-20 mph with gusts to 30mph.

Chance of cloud free mountain/hill tops above 800m: Close to zero overnight across eastern and southern hills with periods or persistent cloud above about 450m, but nearer 40% in the north and west with cloud more occasional above 600m. From late morning cloud largely lifts above the summits, but through the evening across southern and eastern areas the chance increases to 60% as areas of cloud develop above 600m.

Visibility: Very good falling to several kilometres in rain.

Temperature: **Valleys:** Plus 7 or 8 Celsius at dawn rising to 16 Celsius by day.
At 800m: Plus 8 Celsius
Freezing level: Above the summits
